My Timeline
Where I've been & what I've done

Chromaway

Mar - Sep
2023   2024

1 yr, 7 mths

"Developer Experience" team   Front-end developer & UI-designer

I was moved to the "DevEx"-team to help design and set up Chromaways **Block Explorer**, an application for making the data of the blockchain network visible and searchable. Later I was also tasked with working on the **"Postchain-client"** *typescript* library used to make it easier for developers to communicate with the blockchain.

Chromaway

Jul - Feb
2022   2023

8 mths

"Originals hub" team   Front-end developer & UI-designer

I first worked temporarily as a designer for an **NFT-auction house application** after the previous designer had left. Later I was tasked with working with three other front-end developers to develop an **NFT-marketplace application** by using *Typescript*, *NextJS*, *Stitches*, *Radix-UI* and *Storybook*.

Chromaway

Jan - Jul
2022   2022

7 mths

"EU" team   Front-end developer & UI-designer

I worked as a front-end developer and designer in the EU team, a team tasked with highlighting the performance and application of Chromaway's **"Postchain"-blockchain** for a tender project for the EU. I was responsible for drafting, designing and implementing smaller frontend applications in *React* that could showcase how applications could communicate with the blockchain network.

Axfood

Mar - Jan
2020   2022

1 yr, 11 mths

E-commerce platform   Front-end developer

I worked at Axfood, one of Sweden's largest grocers, with the **e-commerce platform** for the store brand "**Hemköp**". The work was mainly about migrating the current code base written in *AngularJS*, to a more modern framework; *React*.

Scania

Oct - Feb
2019   2020

5 mths

"My Scania platform"   Front-end developer

I worked for Scania to build "**micro-frontends**" in *React* for a "**service-as-a-service**" platform; "My Scania". "My Scania" was a project that aimed to create an application that would act as a portal to a large number of services provided by Scania.

Explorate

Apr - May
2018   2019

1 yr, 2 mths

Cargo Freight booking   Front-end developer & UI-designer

I worked for the start-up company "Explorate", building their *Vue* front-end **platform for booking container freight**. Explorate's business concept was to try to automate all the manual steps that you as a customer need to go through to be able to book container shipping from one port in the world to another.

Qualifications

My Data

Extra information

Generic information

Education

[Jönköping School of Engineering](#) ↗

Graphic design and web development

2012-2014 | Associates Degree

Languages

◇ Swedish (Native)

◇ English (High proficiency)

Work rights

◇ Europe (Full)

◇ Australia (Full)

Miscellaneous

◇ Swedish Driver License

◇ Australian Driver License

My experience

Some of the tools I have used over the years
Javascript Frameworks
React   5 years
NextJS   4 years

AngularJS   2 years

Styling Frameworks

CSS   7 years

Styled Components   4 years

SCSS / SASS   4 year

Design Tools

Figma   4 years

Sketch   3 years

Blender   1 year

About me

Quick info

Age	34
Visa	Partner visa 820
Location	Townsville, QLD, Australia
